YES Bank, No Cash

A crowd of account holders in front of Yes Bank

Yes bank is the 4th largest private bank in India. The bank was founded by Rana Kapoor in 2004. On Thursday, 5th of March The Reserve Bank of India imposed a temporary prohibition on Yes Bank. The RBI also capped the withdrawal for it's account

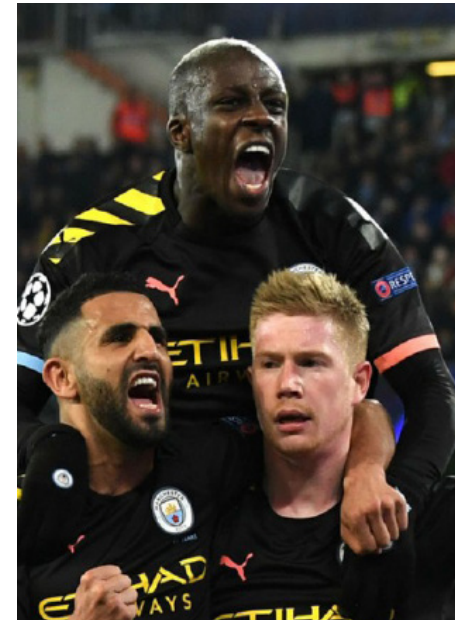

holder to Rs.50,000 every month. This decision by the Central Bank caused chaos amongst the account holder's of the bank. Why was this decision taken by the RBI?

This decision was taken by the RBI because of the mounting bad loan issues the

private bank had been facing. The bank was known for providing loans to business that had been denied loans from all other banks. Yes Bank gave loans to the companies like Jet airways, DHFL, IL & FS, Cafe Coffee Day. All these companies are either shut or are incapable of paying their loans.

Now the question is what will happen to the money of common people? These people trusted Yes Bank with their hard earned money and life long savings. The government should step in to help the people in need.

Champions League

Man City celebrating their win

The UEFA champions league ,an annual club Football competition entered its second week. Organised by the Union of European Football Association (UEFA), it is one the most prestigious club competition in the world. This competition began in 1955. The first leg, round of 16, took place last week. The results of Week 2 are :

Match 5 - Chelsea where up against Bayern at Stanford bridge where Serge Gnabry scored a second half brace and Robert Lewandowski finished the with the 3rd. Full time score 3-0.

Match 6 - Napoli were at home against Barcelona. Dries Mertens shocked Barca in the 1st half with quality strike from outside the box. Antoine Griezmann equalized in the 81st minute. Full time score 1-1.

Match 7 - Lyon were visited by the old lady Juventus. Lyon scored in first half and denied Ronaldo and company of any decisive chance which caused a major upset. Full time score 1-0.

Match 8 - Man city visited Real Madrid at the Bernabéu. City looked shaken in the first half but came back strong after conceding early in second half, Gabriel Jesus and Kevin De Bruyne scored late in the match. Full time score 1-2.

World's Rare Species : Extinct, yet Re-appearing

The world is full of mysteries every now & then. We all dwell here in our habitation as human beings. Other species are also part of this 'Oblate Spheroid'. Have you heard of the last Golden Langur? A rare species, found in Assam. As reported, the forest department has expressed that over the past few years the dropped-down number was one and now no existence at all.

On February 27th 2020, the last existing golden langur was found dead. After it came in contact with a high

voltage electric cable. Umamanda river island was their homeland for several years. Another rare but interesting living species was last seen in Bolivia. For the first time in 18 years! The rare Bolivian glass frog also known as the Bolivian Cochran frog. Three of these translucent

skinned glass frog were spotted in a national park. Weighing 0.7 to 0.8 gm and measuring 19- 24 mm. As a part of the mission, to rescue reptiles and amphibians whose habitat is threatened by a hydroelectric project. The rediscovery of this species fills us with a hope for the future of glass frogs. These frogs are one of the most charismatic amphibians in the world. The three frogs were taken to K'ayra amphibian conservation centre, in a hope to encourage them to breed. Reported by the scientists.

A Restaurant on Wheels

An initiative has been taken where we can use the term 're-use for a better cause'. If you have not got the hint yet, then let me give you the byte, i.e Indian Railway has launched its first 'Restaurant on Wheels' by transforming two old train coaches into eating joints at the circulating area of Asansol Railway Station in West Bengal.

It is a full-fledged 42 seater restaurant serving breakfast, lunch, dinner as well. How cool is that isn't it? This innovative idea will not only

Rejected coaches turns into restaurant in Asansol

improve the facilities at Asansol station but also raise non-fare revenue earnings approximately Rs.50 lakh in the upcoming 5 years said an

official. The restaurant was inaugurated by M.P Babul Supriyo for the use of Railway passengers as well as the general public.

CAMPUS NEWS

Career Roadmap chalked out by Law Dept

“Law is not an easy profession, it requires a lot of study”- said Justice D. K. Basu while enlightening the students on Legal Aid, Human Rights and the importance and contribution of law in society. Dr. Shambhu Prasad Chakrabarty too, emphasized career in the legal profession. He spoke about taking the subject of law as a journey to different levels of society.

On 7th March, 2020 the Department of Law of Brainware University organized a seminar on Career in the Legal Profession: A Roadmap Ahead. The program started with the Inauguration ceremony - Lighting of lamp and

Pro V.C, Registrar along with the guests at the event inauguration

a welcome speech by Pro-Vice Chancellor, Dr. Subhashis Banerjee.

The Chairman of Legal Aid Services West Bengal (LASWEB), Justice D. K. Basu (Retd.) and Head Research Fellow and Centre Co-coordinator, Dr. Shambhu Prasad Chakrabarty were the emi-

nent guests of the event.

The seminar ended with an interactive session between the students and the guests. Lastly, we can say that the vision of the event was successful, which has definitely shown the students a ‘Roadmap’ for their brighter future.

Even Semester Examination Notice

Knock ! Knock ! it’s March 2020, the countdown is yet to begin. The Even Semester Examination dates has been scheduled and published by the University. The commencement of examination as published in between 10th of June to 30th of June respectively. So, we all need to pull up our socks to prepare and perform better than the previous.

Brush-Up for C2C by Pharmacy

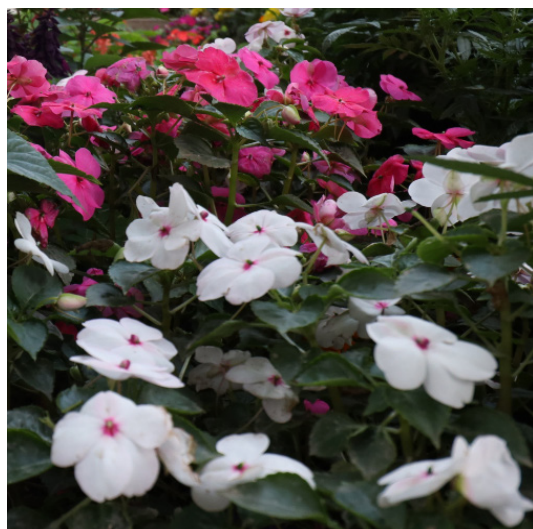

The C2C Dept. of the University organized a workshop on “Role of Training & Development in Career Building”. It was attended by the 2nd year students of D. Pharm and B. Pharm. It started with a welcome speech, delivered by our university C2C members Mr. Mrinal Bhattacharya & Mr. Arnab Ghosh.

On 7th March 2020, the Training and Development team of Apollo Hospitals Enterprise Ltd. was invited to conduct the event. The main focus was to enlighten the students regarding their career. Thus, the University often organizes workshops and seminars to bridge the gap between the Academics and the Industry.

The guests, Mr. Arup Mandal & Mr. Prasenjit Swarnakar were greeted by the HOD of C2C Department. The interactive session was well conducted. The guests through presentations and discussions apprise the students with the vision “To Make India a Global Healthcare Destination”.

This workshop provided a platform to the eminent professionals from the corporate world to share their experience and knowledge with the students. Also this event made students understand the scenario of job market.

Brainware’s Breathing Beauties

Session Flower in Brainware University’s Garden

The reason behind the vibrant and clean environment around our campus is the hard work and efforts of numerous people. Here I am naming one of them Mr Basudev Ghosh who is the gardener of our university. He has planted many floral species, such as Petunia with different co-

lourful varieties, marigold, roses, Dalia and so on. He has also planted some plants like mango, lychee, chikoo which will be enjoyed by the students on their seasonal time. The work was done under the supervision of Mr Srimanta Pramanik who is the campus supervisor.

The plantation of the breathing flowers was done before the early winter. If you feel low, maybe the day did not go according to your wishes. Just seeing around the vibrant campus you will feel the positivity. Nature does have the soothing and healing power.
